

Marbled Sun Prints

Make marbled paper that looks like our Sun!

The Sun (also called Sol) is the star at the center of our Solar System. Our Sun is about 93 million miles (150 million kilometers) away, we can feel its heat and light on Earth.

Materials Needed:

The Dynamic Sun

The Sun (also called Sol) is the star at the center of our Solar System. The Sun's surface is very active and always changing.

The Sun is made of gases that are always moving. This movement makes the surface of the Sun a busy place.

active. Other times, things are a bit quieter.

Scientists on Earth monitor how quiet or active the Sun is.
