20-GPCh.: Program Change: Special Education K-12 Post-baccalaureate Certificate of Completion	Mitch and Mike Changing prereq courses to co-req courses (must take after admitted to the program). Mike had questions about whether this is reasonable. If the course is not really a prerequisite, tell us how that can happen. Will this diminish student success? Holly noted that checking is not turned on for graduate level courses. Mike will contact the proposers. Mike contacted Jane Monahan with regard to prerequisites. They agree that these should be prereqs but it is not practical because they can't get financial aid; feel that most students have practical knowledge that allows them to succeed. Will ask students to take prereqs in the first semester. What does Mike C think? Rationale is OK, GAAC will pass with a recommendation to do a student learning outcome assessment after the first year of the new program. GAAC passed

They need 40 hours of direct contact, 60 hours of indirect contact. The hours are confusing; not clear if they need 3 credits or 4 credits would be OK. Mitch will ask them to come and present to us. Need to find out if they really need that much time. Do hours match the credits? Mitch will follow-up. Email vote. GAAC passes pending credits on form from 2-3, 4/10/17.</p>
